Subject: Re: Formaldehyde "Assessment Overview" document review- comments in Sharepoint version requested by 06/02/17
Attachments: Limited Review of March Formaldehyde large v2.docx; Bucher-formaldehyde_assessment overview_052217reviewbyIO.pdf

Good morning Andrew,

As requested by Kris, I've looked through portions of the March Toxicology Review and have enclosed a few comments for your consideration in a separate small file. I am also enclosing the Assessment Overview with comments and a few tracked edits. Let me know if this file gets hung up somewhere or you have trouble opening it. I work on a mac, and it introduces a number of unknowns when dealing with sharepoint files. Overall, I found the overview to be quite well done. Congratulations.

Thanks

John

Subject: Formaldehyde "Assessment Overview" document review- comments in Sharepoint version requested by 06/02/17

Dear Reviewers,

Thank you for agreeing to review the "Assessment Overview" document for formaldehyde. We are asking for your comments **by 06/02/17**.

We created a folder in SharePoint with the file titled, "formaldehyde_assessment overview_052217reviewbyIO". We would appreciate it if you could make comments in this Sharepoint version to consolidate and expedite the comments and our revisions, respectively. The link to the folder is here:

[Management Review 2017](#)

We will also provide in this folder, as background material only, a copy of our in-process drafts. We would appreciate it if edits were not made to these documents (although comment bubbles could be inserted). The documents of interest are the partially tech-edited Toxicological Review ("Main text 042117reviewbyIO"), as well as the non-tech edited Appendix documents in 2 parts ("FormaldehydeAppendixdraftPREtechEdit042517_a" and "_b").

Thank you and please let us know if you have any questions or difficulties accessing the materials!

-Barbara and Andrew

P.S. You should also receive a separate email from Sharepoint with a link to the folder, if all goes smoothly
